Having verified the mutual interest that the University/Institution of Adichunchanagiri Institute of Technology, Chikkamagaluru, Karnataka, India and l'Università degli Studi del Sannio share in establishing an appropriate form of exchange program in the field of

1. **Mathematics & Informatics**
2. **Industrial & Information Engineering**
3. **Computer Science and Engineering**
4. **Artificial Intelligence and Machine Learning**

THE FOLLOWING TERMS OF AGREEMENT ARE STIPULATED

BETWEEN

The Università Degli Studi del Sannio, represented by the Rector Prof. Gerardo Canfora residing in Piazza Guerrazzi, 1, 82100 Benevento, Italy

And
the Adichunchanagiri Institute of Technology Chikkamagaluru Karnataka India, represented by the Rector Dr. Jayadeva, Principal, AIT, Chikkamagaluru in Karnataka, India

Art.1 Settori e aree di studio e ricerca

L'Accordo interessa prevalentemente le attività di studio e ricerca nei settori

1. **Scienze matematiche e informatiche**
2. **Scienze Fisiche**
3. **Scienze Chimiche**
4. **Ingegneria Civile e Architettura**
5. **Ingegneria Industriale e dell'informazione**
6. **Economia e Statistica**

Entrambe le Università possono instaurare cooperazione in altre aree didattiche e di ricerca, qualora lo considerino appropriato. In questo caso anche per le aree, si intenderanno approvate le clausole declaratorie allegate al presente accordo.

Art.2 Obiettivo dell'accordo e tipi di collaborazione

La forma di cooperazione specificata nell'Art. 1, basata sui rigorosi criteri di uguaglianza e interessi reciproci, include le seguenti attività:

1. Mobilità del personale docente e ricercatore relativo alle aree menzionate nell'articolo 1.Gli incontri hanno l'obiettivo di promuovere seminari, corsi, conferenze e dibattiti, creare progetti di ricerca, esaminare esperienze nell'ambito dell' interesse comune, ecc.

2. Divulgazione di pubblicazioni e informazioni relative ai campi specifici di studio e investigazione inclusi in quest'accordo o altre attività formative.

3. Mobilità degli studenti iscritti ai corsi di laurea o laurea magistrale e corsi di dottorato per realizzare periodi di studio e ricerca.

4. Mobilità di studenti per partecipare a corsi di formazione o di specializzazione o ad altre attività formative.

5. Mobilità personale tecnico-amministrativo.

I promotori del presente accordo possono specificare le modalità di attivazione dei predetti punti utilizzando specifici protocolli (per esempio, la durata dell'istanza e gli obblighi del visitante, il procedimento di selezione dei candidati, una spiegazione dettagliata delle aree che si considerano nell'accordo, costi di iscrizione e di altro tipo, ecc.).

Le università che sottoscrivono quest'accordo promuoveranno la mobilità degli studenti seguendo un criterio di reciprocità. L'istituzione ospitante metterà a disposizione degli studenti in mobilità le strutture didattiche di cui è dotata ed i servizi di tutorato.

Art.1 Fields and areas of study and research

The Agreement mainly interests the study and research areas of

1. **Mathematics & Informatics**
2. **Industrial & Information Engineering**
3. **Computer Science and Engineering**
4. **Artificial Intelligence and Machine Learning**

The two Universities have the right to pursue, when they both deem it appropriate, other areas of cooperation. In this case, the appropriate administrative units will approve explanatory clauses to be attached to this agreement.

Art. 2 Purpose of the Agreement and types of collaboration

The form of cooperation specified in art. 1, based on strictly-observed criteria of equality and mutual interests, includes the following activities:

1. Exchange visits of members of the teaching and research staff of the units mentioned in art.1. Visits are intended to promote seminars, courses, conferences, lectures, to carry out joint research projects, to discuss experiences in fields of common interest, and so forth.

2. The circulation of publications and information on the specific fields of study and research included in this agreement and on any other subject of relevant interest

3. Exchange visits of post-graduate students and graduated for periods of study and research.

4. Student exchange for the purpose of attending courses, participating in professional training and specialisation programmes or other educational activities.

5. Exchange visits of members of technical or administrative staff.

The promoting administrative units can specify in specific protocols the different forms to implement these exchanges (i.e., visitor's length of stay and obligations, application selection procedure, detailed explanation of the fields for which the agreement is stipulated, etc.)

The Universities subscribing this agreement intend to encourage student mobility according to criteria of reciprocity. The host institution will make available to host exchange students their didactical facilities and tutorial services.

Gli studenti durante la mobilità riceveranno i crediti accademici corrispondenti al lavoro accademico realizzato nell'istituzione ospitante.

Art.3 Attività di supporto

Le parti sottoscriventi il presente accordo scambieranno tutte le informazioni rilevanti – per mezzo di guide o altro materiale- per promuovere una maggiore conoscenza reciproca della propria struttura istituzionale e organizzativa.

Le parti sottoscriventi il presente accordo, in conformità con le leggi e le norme dei rispettivi Paesi, garantiranno ai visitanti dell'istituzione ospitante tutto il sostegno e l'accesso possibile alle strutture, al fine di consentire loro la realizzazione delle attività concordate.

Art.4 Assicurazione

I professori e gli studenti del progetto di mobilità inviati da una università a un'altra, potranno dotarsi dell'assicurazione attraverso l'università di appartenenza, in conformità con le proprie norme o per mezzo di un'assicurazione che garantisca la copertura sopra menzionata. L'università ospitante sarà esente da qualsiasi responsabilità di garantire piani di assicurazione sanitaria agli ospiti stranieri.

Art.5 Finanziamento

Ciascuna delle parti sottoscriventi si impegna alla ricerca di fondi per realizzare le attività previste nell'accordo.

Se non saranno disponibili fondi istituzionali, gli studenti ed i docenti saranno direttamente responsabili di procurare copertura alle proprie spese di trasporto, alloggio, non sarà quindi prevista nessuna spesa a carico delle due università.

Con la sottoscrizione del presente Accordo, le istituzioni firmatarie non assumono obblighi finanziari a carico dei rispettivi bilanci.

Art.6 Coordinatori

Le attività previste dall'accordo saranno realizzate inizialmente dai seguenti coordinatori nominati da ogni Università:

During the mobility to the exchange students will be given academic credits for the work done at the hosting institution.

Art. 3 Supporting Activities

The parties subscribing this agreement will exchange all relevant information - by supplying catalogues and other materials - to promote greater and mutual knowledge of their institutional structure and organization.

The parties subscribing this agreement, in conformity with the laws and regulations of their respective countries, the subscribers of this agreement will provide visitors from the partner institution with all possible assistance and access to facilities to enable them to carry out the activities agreed upon.

Art. 4 Insurance Procedure

The visitor's teachers and the exchange students sent by one University to the other must have both medical and accident insurance. This may be provided either by their home institution, according to its own regulations, or it may be directly set up by the interested person, through the stipulation of a policy with an insurance agency guaranteeing the above mentioned risks. The host university will be free from any responsibility to provide schemes of medical and accident insurance to its foreign guests.

Art. 5 Funding

Each of the subscribing parties commits itself, through its participating units, to seek funds to carry out the activities foreseen by this agreement.

If institutional funds are not available for these purposes, student and staff mobility will be possible; in this case, exchange visitors will be directly responsible to fully cover their own expenses for travel, room and board, without any charge for the two Universities.

With the signing of this Agreement, the signatory institutions do not assume financial requirements of their budgets.

Art.6 Coordinators

The implementation of the activities foreseen by the agreement will be promoted, initially, by the following Coordinators, appointed by each University:

Website Development Agreement

It is our intent to serve our Clients to the best of our ability. One way we do this is by having a simple, yet clear agreement between Capulus Technologies Private Limited and the Client.

This WEBSITE DEVELOPMENT AGREEMENT is entered into on 01 /08/ 2018 (Effective Date) between Capulus Technologies Private Limited (Herein after referred to as ***Company***) and

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING (Herein after referred to as ***Client***)

These are the terms of our Agreement together:

1. Purpose and Authorization:

The Client is engaging the Company, for the purpose of developing and/or improving a website or web application to be installed on a web hosting server. The Client authorizes the Company to access this account, and authorizes the Company with "write permission" for the Client's web space wherever applicable.

2. Website Content:

The Client agrees to provide the Company ALL content for the website such as text, images, video and sound in an electronic format. All content is to be arranged by each web page. Client understands that the Company may choose not to begin customization of the website until all content is received. If the Client does not supply the Company complete text and graphics content for all web pages contracted for by the Completion Date as listed in Section 15 of the Agreement, the entire amount of the Agreement becomes due and payable.

3. Designated Client Representative:

To ensure effective communication and an efficient design process between the Client and the Company, the Client agrees to designate a single representative to communicate directly with the Company. The representative will ensure ALL content has reached final approval within their organization before submitting the finalized content to the Company.

Designated Client Representative Information

Name: Dr. Pushpa Ravikumar

Phone: 9483523386

Email: flowersunpr@yahoo.co.in

*Changes made to content that has already been submitted by the representative may result in additional charges.

9. Copyright to Webpages and Designs:

The Company through an agreement has been provided the use of 3rd party toolkits and designs. The design may be used by the Company to build websites for its Clients. These templates are owned by the 3rd party provider and the Client agrees that they will not put them on a diskette, CD, website or any other medium and offer them for redistribution or resale.

Upon final payment of this contract, the Client is assigned rights to use the website, graphics and text contained in the site. Rights to photos, graphics, source code, source files, and computer programs which are not provided by Client are specifically not transferred to the Client, and remain the property of the Company. Capulus Technologies Private Limited retain the right to display graphics and other Web design elements as examples of their work in their respective portfolios.

10. Age:

Authorized representative of the Client certifies that he or she is at least 18 years of age and legally capable of entering a contract in India on behalf of the Client.

11. Additional Services and Fees

Client agrees to reimburse the Developer for any Client requested expenses necessary for the completion of the project. Examples would be:

- Purchase of third party services at the Client's request.
- Purchase of specific software at the Client's request.
- Purchase of specific tools/plugins at the Client's request.
- Purchase of specific fonts at the Client's request,
- Purchase of specific photographs/Images at the Client's request.

The Company understands, however, that Clients may request significant design changes to pages that have already built to the Client's specification. To that end, please note that our agreement does not include a provision for significant website modification or creation of additional pages in excess of our agreed page maximum. If significant modification is requested after the website has been built to the Client's specification, we must count it as additional work and it'll be billed as per the norms.

Other services and fees – The Company may agree to provide additional services in relation to the website. The cost for the additional services will be agreed upon in advance between the Client and the Company.

12. Page Modifications by Third Party or Client: Some Clients will desire to independently edit or update their web pages after completion of the site. Note however, the Company is not responsible for any damage created by the Client or agent of the Client. Any repairs required will be assessed at an extra cost.

13. Payment Schedule:

Fees to the Company are due and payable on the following schedule:

- 50% of the estimated cost upon signing of this agreement.
- Remaining balance due once development is completed with the content provided from the Client.

4. Web Hosting and Domain Registration:

The Client understands that any web hosting services require a separate contract with a web hosting service provider. The Client understands that certain features may need to be activated and/or purchased from the web hosting service in order for the web site to function properly. The Company will work with the Client to ensure the correct hosting features are installed on the hosting server. If needed, the Company can secure a web hosting account which support the technology required for the Client's website or web application.

Domain Registration: The Developer will secure a domain name for the Client at the Client's request. All charges incurred in doing so will be billed to the Client as an addition to the base price contemplated by this agreement. These are standard fees, and has to be paid to the service provider.

If the Client already has a domain name, the Company will coordinate with the designated Client representative in redirecting the address to the new host. If the Client desires a specific domain name, which is already owned by another party, negotiations for said domain name must be undertaken by the Client.

5. Website Maintenance:

The Client understands that once the website is completed and installed to the Clients web space the Client takes on the responsibility of maintaining all aspects of the site, such as text, images, video and sound files. On client's request the Company may provide a Content Management System (CMS) which will assist the Client in maintaining the site. The Client is responsible for the cost of the CMS. The Company can make changes to the site as per the Clients request which will be billed as per standard norms.

6. Assignment of Project:

Capulus Technologies Private Limited reserves all the rights to assign subcontractors to this project to insure the right fit for the job as well as on-time completion.

7. Legal:

Capulus Technologies Private Limited does not warrant that the contents in the website will be uninterrupted or error free. In no event will Capulus Technologies Private Limited be liable to the Client or any third party for any damages, including any lost profits, lost savings or other incidental, consequential or special damages arising because of the contents of the website or because of the operation of or inability to operate these web pages or web application. If in any case, the published information is found unlawful, inappropriate or violating the agreement, Capulus Technologies Private Limited retains all the rights to remove such contents without any prior notice. If any provision of this agreement shall be unlawful, void, or for any reason unenforceable, then that provision shall be deemed severable from this agreement and shall not affect the validity and enforceability of any remaining provisions.

8. Copyrights and Trademarks:

The Client represents to Capulus Technologies Private Limited and unconditionally guarantees that any elements of text, graphics, photos, designs, trademarks, or other artwork furnished to Capulus Technologies Private Limited for inclusion in web pages are owned by the Client, or that the Client has permission from the rightful owner to use each of these elements, and will hold harmless, protect, and defend Capulus Technologies Private Limited and its subcontractors from any claim or suit arising from the use of such elements furnished by the Client.

14. Initial Payment, Final Payment and Cancellation:

The Estimated Cost of this agreement is ……..

This agreement begins with an initial deposit payment of …….. .

At the completion of the site, Capulus Technologies Private Limited will provide the Client with a final billing of the actual cost for the site. Payment must be received in full before the web site is published online.

If the Client halts work and applies by registered letter for the cancellation of website to the Company. Within 10 day of the cancellation, any work completed up to the cancellation date will be billed to the Client. The Client is responsible to pay for any work completed which is not covered by the initial deposit.

15. Duration of completion:

Capulus Technologies Private Limited is bound to submit a First Mockup Draft of web site no later than twenty (20) days after the Company receives signed agreement, along with down payment and initial direction from the Client. Client has to provide the Company with all the data needed to complete web site, including text, company logo, and photos. Upon completion of this stage, the Client will be asked to confirm acceptance for the basic site design via e-mail or by signing a printed copy of the design. Further, the Company and the Client must coordinate together to complete the website in a timely manner. We agree to work expeditiously to complete the website no later than 30 Days. After contract has been paid in full, site will then be made online.

16. Notices:

Any notice required by this Agreement or given in connection with it, shall be in writing and shall be provided to the Capulus Technologies Private Limited by personal delivery or by certified Email.

17. Laws Affecting Electronic Commerce:

From time to time governments enact laws and levy taxes and tariffs affecting Internet electronic commerce. The Client is solely responsible for complying with such laws, taxes, and tariffs, and will hold harmless, protect, and defend the Company and its subcontractors from any claim, suit, penalty, tax, or tariff arising from the Client's exercise of Internet electronic commerce.

The undersigned agrees to the terms of this agreement on behalf of his or her organization or business.

Memorandum of Understanding

between

Indian Space Research Organisation, Bangalore

Visvesvaraya Technological University, Belgaum

and

VTU affiliated Engineering Colleges

This Memorandum of Understanding entered into this 28th day of May 2007 between **Indian Space Research Organisation**, Department of Space, Government of India, **Visvesvaraya Technological University**, Belgaum and **VTU affiliated Engineering Colleges**, partners all of whom have already entered into a MoU, called herein after an TRIPARTITE AGREEMENT for establishing an exclusive satellite interactive VSAT Channel-1 with two-way video and two-way audio network.

Indian Space Research Organisation represented by its Director, SCPO (hereinafter called ISRO) of the first part and Visvesvaraya Technological University, Belgaum represented by its Registrar (hereinafter called VTU) of the second part and VTU affiliated Engineering Colleges represented by its Principal (herein after called the "Recipient-Institute") of the third part.

WHEREAS ISRO is committed to development and use of modern space technology for promotion of education and training has launched a satellite dedicated for education called EDUSAT. The parties mentioned above are planning to set up a dedicated VSAT network for higher learning in engineering.

WHILE ISRO is establishing an Edusat Hub for the State of Karnataka at DSERT, which will cater to the needs of Primary, Secondary and Higher educational needs of Karnataka. For higher education needs, ISRO will provide the necessary VSAT, Hub and Teaching end, VTU will coordinate with various engineering colleges affiliated to it and manage the VSAT network, which is a part of the overall VTU-EDUSAT network currently being in full operation from Bangalore. VTU is primarily responsible for conducting various courses of undergraduate and postgraduate programmes in engineering and other academic related programmes. While the Recipient-Institute will completely make use of the VSAT network

provided to it by enabling its students and faculty members to participate in various programmes that will be transmitted under VTU-EDUSAT programmes.

AND WHEREAS ISRO and VTU believe that modern technology is an important tool which must be leveraged for increasing and strengthening educational opportunities and activities. It is further believed that the EDUSAT can provide connectivity between the far flung rural areas and the urban centers of information, and can improve the access and quality of education. Therefore, it is a joint initiative by aforementioned parties to launch interactive channel for the benefit of engineering students/faculties.

To this effect the three parties have agreed to work jointly towards effective utilization of the overall VTU-EDUSAT network in general and VSAT Channel in particular and to identify their respective roles and responsibilities.

NOW IT IS HEREBY AGREED as follows:

1. **That ISRO shall be responsible for**

   a. Supply, installation and commissioning of 30 VSATs, either by itself or through any agency authorized by ISRO for the said purpose, which include SITs (Satellite Interactive Terminals) and college-end peripheral equipment at a location or locations to be notified by VTU in consultation with ISRO for the utilization of the said EDUSAT network.

   b. Providing the required bandwidth on EDUSAT satellite transponder, which will support the required transmission channel.

   c. Providing technical guidance and assistance, as may be required from time to time at the SIT and Hub levels.

2. **That VTU shall be responsible for**

   a. Monitoring, maintaining and regulating the scheduling and programming of the Network.

   b. Getting the sites/locations ready for installation/commissioning of hardware/terminals (including building, AC, Electrical Power etc.), as per the specifications and drawings of the equipment/room provided by ISRO.

   c. Delivery of lectures in the network, content generation and archival and enabling technology support in the various channels (VSAT and DTH) and Data Channel.

   d. Devising a mechanism to accredit the course/programme or give credit to the participants/recipients of programme, in the form of some certificate, diploma, degree, etc.

   e. Overall coordination with ISRO or its authorized agency during installation/ commissioning and with Recipient-Institute.

f. Follow- up/coordination with all stake holders for utilization of the network.

g. Expansion of the network will be funded by VTU.

h. Further AMC of HUB and terminals after initial AMC period is completed.

i. Either train its own manpower to operate the HUB or pay for the manpower operating the HUB for which ISRO is paying during the first year.

3. **That the Recipient-Institute shall be responsible for**

a. Identifying the location for classroom/receiving end.

b. Safe custody of items supplied and installed and identification of the custodian for the same at all locations.

c. Creating mechanism and providing required manpower for the regular operations and maintenance of the network.

d. Ensuring that students/teachers are attending all sessions being transmitted in the network.

e. Accommodating the sessions being transmitted in the network in the regular time-table of the Recipient-Institute.

f. Complete utilization of the facility.

g. For the purpose of discharging its responsibilities, the Recipient-Institute shall designate a specified authority as EDUSAT coordinator.

h. The Recipient-Institute also encourages their faculty members to participate in this programme by delivering lectures from VTU Studio, Bangalore as and when required.

i. After initial installation, if there is a need for re-location and shifting, the cost for this should be borne by Recipient-Institute.

4. It is understood that the ownership of SIT and other peripheral equipment shall be ultimately transferred to the Recipient-Institute. The Recipient-Institute shall operate and manage this SIT and peripheral equipment from the date of installation by ISRO.

5. The Recipient-Institute shall also take up the responsibility of AMC of this SIT and peripheral equipment after expiry of the warranty and transfer of ownership.

6. **If the performance of the Recipient-Institute, as expected from this MoU, is not found satisfactory then ISRO reserves the right to transfer the SIT and other equipment to some other location/institute of its choice.**

7. **Exchange of Information -**

That all technical information, including any other information as mutually agreed upon in this MoU, shall be treated as strictly confidential; and, shall not be disclosed to any other person whether in India or abroad unless otherwise agreed between the parties. Nothing in this MoU shall however be deemed to prohibit disclosure of any confidential information required under law, through an order of a court or a regulatory or other competent authority under the Government of India.

8. **Effective Date of MoU -**

This MOU shall be effective from this date of signing.

9. **Duration of MoU -**

This MoU will remain in force from the date of its execution for a period of 24 months after which it may be renewed annually by the parties for a period as may be mutually agreed upon. In the absence of such renewal, this MoU will lapse without any liability on any party.

In WITNESS WHEREOF ISRO, VTU and the Recipient-Institute have caused this MoU to be executed as of the day, month and year first above written.
